## FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

Nothing of Special Interest done Yesterday—Credentials and Eulogies the Order of the Day.

SENATE.

WASHINGTON D C., January 26.—Senator Bayard announced his intention to speak upon his resolution to-morrow.

On motion of Mr. Terry, Wednesday of this week was set apart for the delivery of eulogies upon the life and character of the late Senator Chandler.

HOUSE.

Mr. Clark, of Missouri, presented credentials of J. F. Phillips, Representative elect from the Seventh Congressional District of Mo., and the oath of office (iron-clad) administered the gentleman, though Garfield, of Ohio, called attention to the fact that a certificate of election was signed by the Secretary of State, and not by the Governor of Missouri. The speaker then proceeded to call the States for bills.

### The Maine Dual Assembly.

BOSTON, Jan. 26.—The *Herald's* Augusta special says the Fusion Senate met to-day with only seven members, and took recess until 4 P. M. It is now thought that after hearing what the Supreme Court has to say to the Fusion statement and question, that Governor Davis will issue a proclamation calling on the Fusion government to disperse, and will enforce it by arrests, it is thought, on Wednesday. It is believed that Wednesday will be the last day of the dual government.

BANGOR, Me., Jan. 26.—The Chief Justice summoned the Judges of the Supreme Court to assemble here this evening, to determine whether any what action shall be taken upon the questions submitted by the Fusionists. As the court has twice gone over the whole ground of controversy, the season will probably be brief.

### Blows his Own Brains Out.

BOSTON, Jan. 25.—Specials from Augusta say that much dissatisfaction exists among the Fusionists, who assert that Garcelon traded with the Republicans and plotted with Chamberlain to deliver the State House to the Republicans. The State House officials are positive the Fusionists were to have captured the State House last night, but precautionary measures prevented it. The Governor has been advised by some of his friends to order the entire military force of the State to Augusta at once, to be ready to disperse the Fusion Government Monday. The military advisers of Garcelon believe the true policy is to end the dual government at once.

### Alleged Cruelty of Children.

NORFOLK, Va., Jan. 25.—An examination began yesterday, in the Supreme Court Chambers, into the truth of the alleged cruelty and abuse of children, by Mr. and Mrs. Cowley, managers of the Shepherd's Fold. Great public interest is shown in the examination. The testimony of the father of a former inmate and a little girl sustained the charges of that of a teacher, who stated that some children came there diseased, wretched and hungry.

### A Long Conversation.

NEW YORK, Jan. 26.—An Omaha special says the telephone was successfully worked Sunday from St. Louis to the Union Pacific transfer, on the east side of the Missouri river, a distance of 410 miles. An ordinary conversation was carried on with the utmost ease. This is said to be the longest distance over which the telephone has ever been successfully operated.

### Compromise Suggested.

LONDON, January 26.—Right Hon. John Bright, in a speech at Birmingham Saturday, suggested that Parliament should appoint a commission to go to Dublin with the power to sell the farms of the landlords to tenants, who are willing to buy them and to advance three-fourths of the purchase money therefor, principal and interest to be repaid in thirty-five years. Such a measure, Mr. Bright said, he believed would meet with the wants and satisfy the desires of the Irish people.

### Heavy Snow Storm.

NEW YORK, Jan. 26.—A Quebec special says that since the recent heavy snow storm dangerous avalanches have been falling at intervals from the cliffs beneath the citidel into the city. In one case three children were overwhelmed by a mass of falling snow, but were dug out alive. The houses for a distance of two miles along one street are threatened with danger of being swept away, and the greatest consternation prevails among their inmates.

### Distress and Suicide.

LONDON, Jan. 26.—Terrible distress prevails in Adrianople. Fifteen persons were found dead from hunger in one day.

M. Fourne, a high functionary of the War Ministry of France for the past twenty five years, on being summoned to produce his accounts, blew out his brains.

### The Fire Record.

NEWARK, N. J., Jan. 26.—The factory of the Weston Electric Light Company was damaged by fire this morning to the amount of $10,000. Many of the machines and patterns were destroyed. It is supposed that the origin was from an overheated flue. Loss was fully covered by insurance.

### Nomination.

WASHINGTON, Jan. 26.—The President sent to the Senate the name of Benjamin Conley to be post-master at Atlanta, Ga.

## CELESTIAL SORROW.

### Funeral Ceremonies of a Chinese Millionaire.

San Francisco Chronicle.

Commercial street was the scene of strange ceremonies yesterday morning, the occasion being the funeral rites of Wong Hip On, who resided with his family at No. 711, and was the senior member of the firm of Low, Sing & Co., doing business at 806 Sacramento street. Owing to the wealth of the deceased the full ceremonies attending the Chinese mode of burial were indulged in by the sorrowing relatives and friends. Early in the morning an awning about twenty feet long was erected on the open street, and under it was placed a rude table covered with a gay red cloth. Upon it stood an elegant brazier filled with incense. Around the edges of the table half a dozen fancy candles were burning. Occasionally an attendant threw incense into the flames of the candles, thus making the air around fragrant with the burning leaves. Near the table were the remains, inclosed in a metal coffin, which was covered by a scarlet pall richly embroidered. Yellow streamers fluttered in the wind, on them was written in Chinese figures various lines from Confucius' writings. Yellow being one of the mourning colors of the Chinese, the body was clothed in a rich yellow silk robe. On the head was placed a gilt crown. The queue wound around the neck and the face well painted. Twelve attendants, with white robes and white streamers bound around their hats, kept the crowd from upsetting the table and coffin. On the sidewalk, bent double and bound in sacks and white cloth, were the wife, sister and daughter of the deceased, moaning and crying. Around them stood a number of old women steically eating sweetmeats handed around in a box by a young girl, and taking no heed of the women at their feet, but instead taking among themselves and allowing no male to come within their circle. The reason for performing the ceremony in the open air was to allow all Chinamen who desired to gaze for the last time upon the features of the departed, and, since the relentless Joss hovers over the deceased, the open air is chosen to give the god more room. Chinamen believe that their souls do not enter the Celestial Kingdom until their bones are buried in the land of their birth, the soul remains around the body until it has been buried in native soil. Then, if Joss is willing, and proper atonement has been made by the deceased's friends in the shape of bogus money, presents, food, etc., to conciliate the hate god, the soul is allowed to enter the celestial gates. The Chinese worship Joss, who is really the evil god, which they account for by saying that the true God is too merciful to hurt his children, but he has placed over them the wicked Joss who cannot harm them unless they have done evil. The priest officiating was dressed in a black stole and cap somewhat resembling the garments worn by Catholic priests on funeral occasions. Other phases in the case of the burial of Wong Hip On greatly resembled that of the Catholic church. A hearse with four horses followed by twenty carriages, with the usual accompaniment of gongs, tom-toms and fiddles, conveyed the remains to the Chinese cemetery, where they will be kept until the bones are blackened and ready to be shipped to China. The last ceremony was that of placing eggs and biscuit in the vault where the dead are kept. The friends then returned to the house of the deceased, feasted on rice and confections, and returned to their various homes.

## EVICTION IN IRELAND.

### Sad and Terrible Scenes Attending the Expulsion of Farm Tenants from House and Home.

Cughonnat (Ire.) Telegraph. Dec. 13.

The Dempsey family has been for eighty years past tenants on the Blosse estate, and about thirty years ago it was removed from one portion of it to Loonamore, where it has been toiling for that period, paying Blosse annually a sum of £26 as rent. The government valuation is £21 10 shillings. Dempsey owed one year's rent in May last, and at the following County court sitting the landloard took a decree for possession on account of the non-payment. The costs amounted to about £7, making a total of £33. This Dempsey was unable to pay, and the sheriff attended at his house on the 15th of November last for the purpose of evicting him. Dempsey was in a most helpless condition. His mother, aged eighty years, depended upon him for support, together with a young wife and five helpless children, the oldest of whom is only seven years of age, and three of them suffering from scarlatina of a malignant type. Owing to the state of the children the sheriff could not carry out the eviction, and withdrew, stating that on that day week he would return, and charging Dempsey £2 for his visit. Yesterday's proceedings surprised everybody, for although most ample arrangements were made, and a large number of police were drafted in from Castlebar, Claremorris, Belcarra, Bella and Ballyglass, no one even suspected that the eviction was to take place. The sheriff left Westport by the 1:30 a. m. train, and on arriving at Castlebar a party of armed police, numbering ten, entered the train and went Manulla. The sheriff then sent for the constable, who learned for the first time his destination. The police marched off towards Loonamore, and the sheriff waited for some time at the station. So strict was the privacy maintained that the sheriff on being asked at Manulla whither he was going declined to tell. A car consequently arrived on which Mr. Tandy, J. P., the agent of Sir Robert Blosse, was seated. The sheriff took his seat on the vehicle and drove off. On overtaking the police the horse walked slowly for a long distance immediately before them. The appearance presented was something like that of a military funeral. On arriving the sheriff informed the now distracted Dempsey that he had come to execute the decree. Dempsey pleaded for time to endeavor to procure the money by some means at Bella, and this the sheriff agreed to, but before Dempsey returned the work of eviction had commenced. There were at least fifty or sixty police present, headed by sub-Inspector Pepper. The morning was extremely cold, and there was a severe frost. The children, mother and aged grandmother were turned out by the bailiffs, and cried loudly and bitterly during the sad ceremony. The children, who were barefooted and poorly clad, rushed into the house several times from the cold, but were again and again led out by the bailiffs. The beds and furniture were next hurriedly thrown out, the house was locked up, and the sheriff, agent, and the police turned from the scene, leaving the unfortunate victims behind, still sobbing bitterly and shivering with cold. Mr. Thomas Reilly and the broken-hearted Dempsey arrived, having failed to procure the money. A fire was lighted in a field, around which the family seated themselves. The sheriff before leaving handed Dempsey the £2 which he received on his former visit. A neighbor of Dempsey's, struck with pity, came up and offered the family the shelter of his house if Mr. Reilly would obtain for him the consent of the agent (!) as he would be afraid to allow them in. This Mr. Reilly refused to do, and he returned to Balla, stating that he would take family to his own residence. At 5 o'clock in the evening he and a party from Balla arrived with cars, and the unhappy family bade adieu to its homestead, probably forever. The whole proceedings were of a most revolting nature.

### A Campaign Against Grant.

NEW YORK, Jan. 23.—There has been organized here within a few days a body called the "Independent Republican Association of the City of New York," who will begin an immediate campaign against the Grant movement. It is partly the outgrowth of the "Young Scratchers'" movement that opposed Cornell in the fall campaign. They will work against Grant's nomination and against him at the polls if nominated. They are not alone in this fight. While Secretary Sherman was here in the holidays he met thirty influential Republicans, who arranged to open a headquarters here and begin a vigorous campaign against Grant. Money in considerable sums has been contributed since and documents have been printed to be scattered all over the East. It is to be an open fight and in a headquarters to which any one may run. A systematic campaign is to be begun—of course in Sherman's interest.

## ANOTHER EDISON.

### AN ELECTRIC LIGHT SUPERIOR TO EDISON'S.

### A Young Man in Cincinnati by the Name of Edwards is the Man.

Cincinnati Enquirer.

Some days ago the *Enquirer* contained an announcement that an inventor named E. Edwards had perfected an electric light, which had been pronounced by those whom he had let into the secret, to be superior to the Edison light, now burning at Menlo Park. This was followed by another to the effect that a company was about to be organized here to introduce the light to the public. This has not been done as yet, although negotiations are pending for the formation of the company. Yesterday an *Enquirer* reporter called on Mr. Edwards, the gentleman who claims to have invented a new electric light, for some information concerning his invention, but found him decidedly averse to saying anything for publicaton. Mr. Edwards is a young man, probably about 26 or 27 years of age, and is the son of a sexton living in Cumminsville. There is nothing particularly striking about him, except a certain positive and confident manner, which gives one the idea that he is a firm believer in his own invention, or else a first-class humbug. He has been for years a dabbler in electric science, though this electric light is his first invention.

Of the light he refused at first to say anything, claiming that, as no public demonstration of its practicability had as yet been made, the time had not come to say anything to the public about it through the newspapers. Finally, he stated that the principal point in his invention was the solution of the problem of the divisibility of the electric current. This he said he had effectually accomplished, although he refused to give even a hint as to the method. In answer to a question of the reporter he said that his light was not produced by the voltaic arc, nor the incandescent method, but by a method original with him, and which had never been thought of by other inventors. What it was he refused to say.

He also stated that one principle in which his method was superior to Edison's was in the fact that where there were a number of lamps on a circuit, it would be impossible to destroy the circuit without severing the metallic connection. It is claimed that if one of the Edison lamps were broken, and the vacuum, and consequently the carbonized paper, destroyed, the circuit would be thrown open, and consequently every light in the circuit extinguished, unless a system of switched or separate circuits for each lamp was used, which would cause a tremendous waste of force. Edwards says in his system there would be no possibility of a breakage of the circuit in such a manner, and consequently no need for the waste of force in switching.

Altogether, if the statements of Mr. Edwards are to be believed, he has solved the electric light problem, and distanced Edison and all other electricians.

Caveats covering the invention have been filed at Washington, and Edwards says in a few months he will be able to make a public demonstration of his light in Cincinnati.

DAVIDSON.

YADKIN COLLEGE, Jan. 23.—Weather very fine, and wheat is looking well. Trade is good in this place. People are selling their tobacco at Winston at a high price and spending their money at home.

The citizens of Davidson are saying not a word about politics. Office-seekers will arouse them—next fall—they always have the people's interest at heart, you know!

While prosperity reigns people manifest very little religion; it takes adversity to bring them to it.

This has been one of the most remarkable winters that we have experienced for several years. No ice has yet been thick enough to gather, and it is feared that none will freeze this winter. P.

GUILFORD.

GRENSBORO, Jan. 22.—The weather is fine, and old people say they have never seen such a winter as this, if winter we may call it.

Trade is lively, wagons from a long distance coming here with produce, of which chickens and furs make a large part. If Raleigh wants chickens, good butter and eggs, just let her write to W. S. Moore—families and hotels supplied at short notice.

Speaking of this party, I noticed yesterday a shipment of nine bales (as of cotton) he was shipping to New York, and on inquiry found them to contain rabbit skins only, and amounting to 29,952 skins. Besides this he sent a valuable bale of assorted skins, by express, to be ready to meet the February London sales. Market brisk and prices are higher. There is another party here who has fully as many skins now, as this shipment, and still they come from Chatham, Alamance, Moore, Randolph, Orange and many other counties.

Rev. Dr. Smith being in your city last Sabbath, preaching for Rev. Mr. Watkins, his pulpit was not filled, and no service.

A notable thing was seen in town yesterday, that of a man quite drunk.

### Gamblers' Badges.

New York Tribune.

Speaking of the difficulty of obtaining access to the gambling houses, Mr. Whitney said: "Few of these places keep roulette tables now-a-days, most of them play faro. The lay-out is made of three pieces united by hinges; and as all descents are undertaken by first forcing in the door, it is an easy matter to double up the board, drop it beneath a trap door secreted in some part of the room, sweep out of sight the other evidences of gambling, and by the time the officers reach the room there is nothing to be seen, except a number of men sitting around smoking or reading. There is an establishment uptown fitted up with a roulette table, which is so arranged that the legs can be drawn underneath it in an instant, the wheel slipped out, and the table doubled up into a small compass. This may all be accomplished in an incredibly short space of time. 'Mike Murray's' house in Twenty-eighth street is fitted up with iron bars, like a prison, so as to defy the efforts at breaking in, or to delay the officers long enough to get their implements out of sight. Thus it will be seen that the only effectual way to surprise them is to get in their presence without their knowledge. Then we have to run the chances of treachery on the part of the person we use to get admission to the place."

## PERSECUTION OF THE JEWS.

### They are Driven From All the Leading Cities of Russia.

London Telegraph.

Some ten years ago an imperial ukase was promulgated granting permission to such Hebrews, Russian subjects, as had acquired an educational diploma or were members of a trading or handicraft guild, to establish themselves and fix their domiciles in the old and new Russian capitals, as well as in all the so-called "home governments" of the Muscovite empire. Under his ukase a large number of well-to-do and a tolerable sprinkling of wealthy Jews set up their shops and counting-houses, exchange offices and banks, in the commercial centers and trading emporia of Russia proper. By the latest anti-Jewish ordinance, bearing the Minister of the Interior's signature, all these financiers, merchants, tradesmen and artisans are forbidden to sojourn any longer in the towns wherein they have established their respective businesses—a prohibition practically equivalent to a sentence of absolute banishment. Such are the measures adopted for the persecution of intelligent, industrious and frugal people, at once loyal subjects and regular tax-payers, by a power which, not three years ago, declared war upon and invaded Turkey "in the name of civilization." Governmental and Panslavistic organs in St. Petersburg have recently raised a cry against the Russian Jews upon the pretext that they have taken an active part in the Nihilistic movement. As, however, Jews in other countries never conspire against the countries that be, but devote their faculties and energies to inoffensive and profitable pursuits, we see no reason to believe that the Russian Jews constitute a solitary exception to the rule exhibited by the rest of the race all over the world. A Russian proverb avers that "any stick is good enough to beat a dog with;" and certainly it would appear that any pretext is good enough, in Russia at least, to justify the persecution of the Jews.

## MR. BENNETT'S STEAM YACHT.

### A New Craft that is Expected to Outsail Any in American Waters.

NEWBURGH, January 23.—The new steam pleasure yacht to be built by Ward, Stanton & Co., of this city, builders of the Shaughraun (now the Henriette), for James Gordon Bennett, is to be finished by the first of June next. She is to be a novel craft in more respects than one.

The prime objects to be attained by the builders and owners is a high rate of speed. She is, therefore, to be cut away at both ends to an extreme sharpness, and in consequence of this narrowness her boilers and machinery will have to be put in the center of the boat to keep her trim. The two boilers to be put in will be of unusual strength—capable of resisting a pressure of 200 pounds to the square inch—the ordinary working pressure proposed being not more than 120 pounds. The yacht is to have three engines, instead of double engines, as is usual in a similar craft. She will have a brace of smokestacks, instead of one, as is common, and she will be heated throughout by steam. The rig proposed for the vessel is also a peculiarity, and is called by the builders a "felucca rig." This is said to be simply three masts, on each of which is to be set a triangular sail. It is said that the object of this is to avoid yards or gaffs aloft, and to have as little resistance as possible when going head to the wind. It is proposed to light the costly craft throughout with gas. Her propeller will be the same as the Henriette's sectional, the blades being cast separate from the hub, into which they are screwed, thus avoiding the necessity of casting a whole propeller when one of the blades breaks. Mr. Bennett has decided to place the saloons aft instead of forward, as it was first proposed. The main saloon will be on the lower deck, and will extend the whole width of the vessel and be about thirty feet long. Forward of this saloon on each side will be two large rooms for the owner and some of his favored acquaintances, and there will be two smaller rooms for guests abaft the saloon. All of the rooms will be furnished with hot and cold water faucets, and will also be upholstered and furnished in the most costly manner.

Mr. Bennett will, it is said, spare no pains or expense to outrival all other crafts of a similar kind ever put in the water in America.

Much interest is manifested in the rate of speed that Mr. Bennett's new yacht will be capable of. She is expected to be able to outsail any craft in American waters.

### Grant Shaken Up.

HAVANA, Jan. 23.—General Grant and his party passed a comfortable night, notwithstanding several earthquake shocks that shook the city. To-day being the King's Saint Day, a grand official reception was held at the palace, attended by the members of the municipality and the superior military and navy officers, in full uniform, and the foreign Consuls. General Callejas, Vice Governor General, held a reception, as usual, in the Thorns Room, Generals Grant and Sheridan and Colonel Fred Grant assisting by the side of General Callejas. The ladies of the visiting party witnessed the reception from an adjoining saloon, no ladies being permitted to attend such official receptions. After the reception General Grant, his son and General Sheridan drove through the city. This evening, at 5:30 o'clock, a grand official banquet will be given in honor of General Grant, at which the ladies of the superior officers are expected to be present. It was expected that General Grant and his party would also attend the Tacon theatre to night, but the banquet will interfere with that part of the plan.

Accounts from Vuelta Abajo indicate that the earthquake was severely felt there and much damage was done to buildings, especially at San Cristobal. The shocks were oscilating from east to west. It is supposed that there has been a heavy earthquake somewhere in Central America. At Santiago de Cuba no disturbance was felt.

## THE LIFE OF AN M. C.

### HOW HE IS TASKED, WORRIED, AND BLED.

### A Profitless Position that Requires the Labor of Three Men—Some Cases in Point.

Washington Star, 24th.

It is common to hear men envy the "easy life" of a Congressman. To persons who never, or rarely, visit Washington and are therefore unacquainted with the duties of a Congressman and the labors that are imposed upon him, the belief is universal that a member dwells upon "flowery beds of ease" and that he has nothing to do but make a speech occasionally and draw $5,000 per year.

A more erroneous idea never prevailed. A member of Congress who attends properly to the needs of his district and the calls of his constituents has but little time for pleasure or recreation. He is one of the hardest worked men in this country. Years ago, when the population was smaller, when mail facilities were of the stage-coach order, and when but few citizens had any business with the public departments at Washington, Congressmen had not a great deal to do. Their constituents seldom came to the capital, because the trip was tedious and expensive. Letters were few and far between and there were but few pensions and claims to look after. Then the M. C.'s gave themselves up very largely to pleasure. In those days cards, horse-racing and cock-fighting were very popular amusements with the National legislators. Ever since the war the demands of constituents upon their members have been growing until now a Congressman is expected to attend promptly to all business that every man in his district may have in Washington. If he neglects these calls upon him he jeopardizes his hold upon his seat.

THE MAN WHO HAS A CLAIM

against the government for services during the war, for property taken, or for anything else, rarely ever thinks of putting it in the hands of any of the numerous law firms or claim agents in this city. He encloses the papers relating to the matter to the member from his district or one of the Senators from his State, and urges that his business be hurried through. Should the Congressman fail to establish the claim and get the money, he frequently, because of his failure, makes an enemy of the claimant, who forthwith declares and works for some other aspirant for Congressional honors. The last time General Rice, late Democratic candidate for lieutenant governor of Ohio, was in Washington he said: "A Congressman who tries to meet all the demands upon him has the work of three men to perform. In the first place there's his duty upon the floor. If he keeps trace of all the bills and public measures, and labors for the success of his own he has as much as any one man ought to do. Then there's his committee work. Not only the work of the committees to which he may belong, but there are matters referred to nearly all the committees which he ought to look after. Then there's his department work. There is not a department of the government, aye, scarcely a division of any department, in which some of his constituents haven't something of interest to them. Applications for appointment to positions, claims, pensions and the many stages through which all these matters have to go." General Rice did not say this complainingly, for no member ever attended more faithfully to his duties than he. He was simply showing that a Congressman's life is not one of ease.

DEMANDS UPON THE CONGRESSIONAL POCKET.

Besides the demands of the nature described, there are a thousand and one pecuniary calls upon members. They are called upon by mail to contribute to all charitable movements in their respective districts, and Senators must meet such requests from the entire State. Then if a constituent, even though he may have been "out on a lark," finds himself in Washington without money, he expects the Congressman who represents him to replenish his purse and "no questions asked." In very many cases men who have indulged in pleasure in New York, Boston and other eastern cities until their funds were exhausted have frequently telegraphed or come in person to their member or senator for money to "take them home." Of course, many of these appeals are refused, but very many of them cannot. Mr. Barnum, of Connecticut, while in the United States Senate, said he would be glad to make over his entire salary to any responsible person who would agree to meet the calls for charity and for assistance upon him from his constituents. Mr. Barnum added that he simply referred to the demands that he felt forced to respond to; that calls of this character more than consumed his salary every year. There is now in the Senate a gentleman who gives every dollar of his salary to his wife and daughter to be used in responding to the calls upon him for help, and in addition to this he gives, every year, a great deal out of his income from other sources than Congress. He got the idea of turning over his salary to the ladies of his family from the remark of Senator Barnum quoted above. Mr. Stephens, of Georgia, since his return to Congress has given away thousands of dollars beyond his salary, Senator Conkling, it is said, in very quiet and unostentatious manner, annually dispenses more than his salary in aiding others. There are very many others who do the same, and therefore find themselves at the end of the year without a dollar to reward them for the arduous duties they have performed.

HOW CONGRESSMEN ARE PLUNDERED.

Besides the money that is voluntarily given away Congressmen are frequently made victims by pretended constituents. Not long ago a very good looking man called upon a member from a distant state, and wanted to borrow $250. The applicant for the loan represented himself as a brother of a leading merchant in one of the principal towns of the member's district. "Then," said the Congressman, "your brother will certainly have no objection to becoming security for you. I'm willing to advance any amount upon his security." "But, I'm so far away," pleaded the stranger. "You can telegraph to him," answered the member. "Bring me a line from him by telegraph, saying it's all right, and you can get the money." "Oh, certainly I can do that," said the stranger, and he immediately departed. In a few hours he returned to the Capitol, called out the member, and showed him a telegram purporting to have come from the brother, who had been mentioned, and pledging himself to be responsible for the loan. The member led his pretended constituent to the Sergeant-at-Arms' office, and there gave him the $250, for which due thanks for the favor were returned, with the promise that the money should be refunded. The member thought nothing of the affair until, some days afterwards he was writing to the merchant. In his letter he mentioned the loan to "your brother," and directed the merchant to put the amount in a certain bank, to the writer's credit, whenever "it was convenient." Imagine the surprise of the M. C. when he received a telegram, followed in due time by a letter from the merchant, saying he had no brother, and had not sent any telegram about the $250. The member related the affair recently, saying he could not explain how the swindler had so cleverly prepared the forged telegram; that he must have gotten hold of a telegraphic blank; "but," added the duped Congressman, "I must confess I did not examine the telegram very closely. I simply read the words it contained, and for aught I know now to the contrary it may have been written upon one of the sending instead of the receiving blanks of the telegraph company." This was told in a group of Congressmen, and brought out several similar accounts of tricks that had recently been resorted to—always by pretended constituents—to dupe members out of money. One member had been caught for $100 by a forged check, another by a letter purporting to come from a friend in the city, who wanted $25 "immediately," and so on. The correspondence of a member of Congress, too, entails a great deal of labor. Letters from constituents must be answered promptly, and in order to do this there is scarcely a member who is not compelled to employ a secretary or an emanuensis. Upon an average, it takes three hours each day, at least, for a member to read and reply to the letters he receives. The impression that Congressmen have nothing to do but enjoy themselves is altogether wrong. They have their troubles and annoyances as well as other people, and, upon the whole, do not deserve half the censure they get.

### O'Hara Before the Exodus Committee

WASHINGTON, Jan. 23.—Mr. O'Hara, colored, testified that he has held office in Halifax county a number of years as Chairman of the Board of County Commissioners, Chairman of the Board of Education and County Examiner. He had also been a member of the North Carolina Legislature and of the Constitutional Convention, was one of the Presidential electors on the Republican ticket in 1876, and is now contesting a seat in Congress. He gave a very favorable account of the condition and treatment of the colored people in North Carolina, both in regard to their industrial and political status. They owned in Halifax county at least twenty thousand acres of valuable unincumbered land in farms of twenty to four hundred acres each, and a similar state of affairs existed in adjoining counties. They enjoyed equal prosperity with white people of the same pecuniary means and were treated by the wealthier classes of the State equally as well. The general condition of both white and colored people in North Carolina was not as flourishing as that of the people of some other States, for the crops had been bad previous to this season for two years. The "store orders" system and the Landlord and Tenant law bore equally upon all classes of farm laborers, and the latter would undoubtedly be amended by the next legislature. Although there was at one time some "bulldozing" in counties bordering on South Carolina there never has been any political persecution in the counties affected by the present exodus, and is none now in any part of the State. Nothing was more common on election days than to see a white landlord and colored tenant coming to town in the same buggy and voting different tickets. White mechanics in North Carolina had no prejudice against working with colored mechanics and no discrimination was made against colored people in the courts or on juries.

Senator Windom remarked that he had been looking for a negro paradise, and now he had found it in North Carolina.

The witness said the exodus was the result of the efforts of agitators going about the country, and not a spontaneous emigration. The less industrious class of colored men were duped by representations that they would get $1·50 per day in Indiana and a new suit of clothes, together with "Government aid" of some sort as they passed through Washington, and they were similarly deceived by circulars purporting to be issued by railroad companies in Kansas and elsewhere. The intelligent negro of the South had, he said, more to fear from white Republicans whowant all the offices themselves, and if the colored men claim a division they combine against them. In this way he had been counted out from his election as Congressman, because he had opposed a white Republican's candidacy for nomination as Sheriff.

Senator Blair referred to the witness as a carpet-bagger from New York and asked him if he were not a contestant for a seat in Congress before "a white tribunal."

Senator Voorhees interposed, as he said, against an imputation on the motive of the witness's testimony, and Senator Blair disavowed intending any reflection upon him.

### The New Union Pacific Railroad—The Consolidation Perfected.

Baltimore Sun, 26th.

A meeting of the Directors and principal stockholders of the Union Pacific, Kansas Pacific and Denver Pacific railroads was held in New York on Saturday to perfect the plan for the consideration of the three companies. It was resolved, after some protests from the Gould element, that the rights of the Kansas Pacific were now fully enough recognized to form a new company under the title of the Union Pacific Railway Company. Each of the old companies is to receive share for share of the par value of $100 in the new company. The capital stock of the new company will be $50,000,000, divided as follows: 364,000 shares of $100 each to be given in exchange for old Union Pacific stock, and 96,000 shares for old Kansas Pacific stock and 40,000 shares for Denver Pacific stock. All the mortgages upon the main branches and subdivisions of the Kansas Pacific and Denver Pacific are to remain. The following gentlemen were elected officers and directors of the Union Pacific railway, while there is no change in the executive: President, Sidney Dillon; vice-President, Elisha Atkins; Secretary and Treasurer, Henry McFarland. Directors elected: Fred. L. Ames, Boston; Carlos S. Greely, St. Louis; Eno H. Baker, Boston; Elisha Atkins, Boston; P. Gordon Dexter, Boston; Sidney Dillon, New York; Grenville M. Dodge, Iowa; Russell Sage, New York; Jay Gould, New York; Solon Humphreys, New York; David Dows, New York; W. L. Scott, Erie, Pa.; S. H. Clark, Omaha, Neb.; Thomas T. Eckert, New York, and John Sharp, Salt Lake. The old directors of each company resigned before the election of the new board. The three roads that are consolidated cover 2,030 miles of track, including 1,252 miles of the Union Pacific, 67 miles of the Kansas Pacific and 106 miles of the Denver Pacific. Some dissatisfaction was expressed among the Kansas Pacific stockholders that an extra apportionment of stock in place of a cash dividend was not accorded them. Union Pacific stock, which will form the basis of the new company, declined to 93 as soon as the consolidation was known.

## WASHINGTON.

### TOPICS OF DISCUSSION AT THE NATION'S CAPITOL.

### Grant Boom Flattening—Sherman's Boom has a Little Impetus—Mrs. Sprague and Mrs. Conkling.

Baltimore Sun.

WASHINGTON, D. C., Jan. 25.—It is stated here, on good authority from Philadelphia, that some of General Grant's friends in that city have authority to announce at the approaching Pennsylvania State convention that he is not a candidate for President. Should this be done, it will be the final collapse of the Grant boom, which has been flattening out with remarkable rapidity for the last two weeks. From the beginning of the Grant boom, no sagacious politician here doubted that the only hope of its success was a nomination by acclamation and the support of a united and harmonious party. It is now apparent, and of this General Grant himself must be thoroughly convinced, that if he obtains a nomination at all it can only be after a bitter and protracted fight in the convention, and that in no event can he count upon that hearty support of his own party which is absolutely essential to the success of any nominee. It is here where General Grant's strong common sense ought to come into play, and he can give no better proof of it than by retiring when he can do so gracefully and with honor.

CRAMMING FOR SHERMAN.

Fred. Hassaurek, a prominent German editor in Cincinnati, and a man of much influence among his nationality, is in town, and he and Secretary Schurz have shaken hands across a chasm that has yawned between them for several years. Political sages see a Sherman boom in this, and it is stated that Secretary Sherman was in a great way responsible for the reconciliation. Schurz has given Hassaurek a dinner at which Sherman was a guest; and Sherman also give him a dinner, at which Schurz was a guest. Private letters from Kentucky predict that Secretary Sherman will get the delegation from that State to the Chicago convention. Major Ben. Perley Poore, the veteran correspondent of the Boston *Journal*, is preparing a biography of Secretary Sherman for campaign circulation.

The Democratic politicians throughout the country are writing to Congressmen, remonstrating against the continuance of the financial debate now going on in the Senate, as they say the people want Congress to let that question alone. Advice is also given against political debates, and everybody seems to think the best thing to do is to pass the appropriation bills at once and go home.

PERSONAL.

Mrs. Sprague on Saturday gave a dinner party to Mrs. Conglin, at which several of the New York delegation and their wives were present. The two ladies have been on terms of the closest intimacy since Mrs. Conkling has been in Washington, and this may help to silence scandal about the estrangement in the Conkling family.

General Grant has invited General Robert Patterson, his old comrade in the Mexican war, to join him on his approaching tour through Mexico, and the old veteran, though now in his 80th year, has accepted. General Patterson will not go to Havanna, but will join Grant on his arrival in Mexico, probably at Vera Cruz.

Wednesday next is set apart for the delivery of the eulogy on the late Senator Chandler. The leading Senators on both sides of the chamber will speak.

### A Glass Factory for Wilmington.

Wilmington Star, 25th.

There is a gentleman here from Boston, who, in connection with one or more capitalists of Wilmington, will soon commence the erection of the necessary buildings for a glass factory. The preliminary arrangements for the inauguration of this new and important enterprise are now being made, and it is expected that the work of putting up the buildings, furnaces, etc., will be commenced in the course of a week or two. The exact location for the factory has not yet been fully determined upon, but it is expected that it will be somewhere in the northern portion of the city, where several possible sites have been examined and their eligibility and suitableness taken into consideration.

We are informed that there will be seven buildings in all, one of which will be in size 55 by 60 feet, one 20 by 40 feet, one 20 by 20 feet, one 12 by 15 feet, and one 30 by 20 feet.

### Such Tragedies are All Too Few.

Boston Transcript.

A young man brought this in: "The palatial residence of our well known citizen, John Smith, Esq., was last evening a blaze of light, the occasion being a recherche soiree in honor of the lovely Miss Smith's arrival home from the Academy. From early gloaming till 9 o'clock were the guests arriving. At that hour all sat down to a most appetizing repast, to which was given the close attention it so well deserved. The large parlors were cleared for the merry dancers at the conclusion of the banquet, and until the wee sma' hours ayont the twal were reached, fair women and brave men tripped the light fantastic toe in the bewildering mazes of the dance." [Etc., etc., etc., and so forth.] When that young man got the paper and found these words: "There was a dance at Smith's last night"—only these and nothing more—he went out and hanged himself.

# DAILY NEWS

TUESDAY, JANUARY 27, 1880

GEO. C. JORDAN, Editor and Prop'r.

THE population of our globe, estimated at about thirteen hundred millions, is ruled by twelve emperors, twenty-five kings, forty-seven princes, seventeen sultans, twelve khans, six grand dukes, six dukes, one vice-king, one nisum, one radia, one imam, one bey, and twenty-eight presidents, besides a large number of chiefs of wild tribes. Of the republics, nineteen are found on American soil, leaving only nine for the rest of the world.

HITHERTO the survey known as the Stratton, has been held to define the legal boundaries of the Pueblo grant of San Francisco. But a number of land speculators have sprung up, and they claim that the whole survey is wrong, and that the title should be redistributed. They have won the City Attorney to their side, and the grab, now before the Interior Department, is promising. At least twenty-five million dollars are involved, and there is great tribulation among the officials of the town.

COMMENTING on the recent sudden death of a pilot while at the wheel of a steamer crossing the river at St. Louis, and a similar occurrence a few days before in the pilot house of one of the ferry boats on East River between Brooklyn and New York, the *Graphic* suggests that it is unsafe to have only one man in such responsible situations, leaving the lives of scores, hundreds or thousands of passengers dependent on the risk of his sudden death, illness, insanity or sobriety. It says: "The danger is just as imminent on the steam-railroads, surface and elevated, and the necessity for the precaution we suggest just as great."

THE reported riot in Rio Janerio grew out of a Government tax on "bonds." Street cars made their first appearance in Rio simultaneously with the Brazilian bonds issued during the Paraguayan war—about fifteen years ago. The cars were humorously called "bonds," and this odd name for them has been permanently adopted. They make a great many round trips daily within a radius of five miles and have become very popular, and the car tickets pass as money in all the stores. The Government has levied a tax upon the cars, and this excited a riot on the part of some ignorant creatures, but it proves not to have been serious.

"FAMINE, with its gaunt form and ghastly visage, has come among them, and strong men as well as little children quail and faint in his presence," is the language used by "a warm-hearted Kansas man." "No such wails reach us from districts where these people had their homes," promptly responds a Boston journal. There is a moral to be drawn from the quotations which those who have fostered the negro migration will not care to accept, but which, it is safe to say they will not attempt to explain away. If the appeal is as truthful as the reply, aid for the victims of the exodus is badly needed, and it is to be hoped the bulk of the responses to the "warm hearted Kansas man" will be more hunger assuaging than that of the Boston paper.

WHEN a Chicago man starts in to commit suicide, it is safe to let him alone. One Benjamin L. Mansfield concluded to shuffle around until he had disposed of his mortal coil, and to that end took a huge dose of morphine. His wife called in a couple of head of doctors, who pumped the man out, whereupon he banged away at one with a revolver, and the policeman arrived he, Mansfield, attacked him with a sword. Finally he was arrested and tried for disorderly conduct, for which he was fined fifteen dollars. Mr. Mansfield is now left to the reflection that had he turned the pistol against himself instead of his preservers, he might be some money ahead.

ALL the European powers are anxious to secure as much influence as possible in Egypt and it is clear that England will not be any longer allowed to play the part it has hitherto played of dictator in Egyptian matters. In fact Great Britian virtually admitted this, the other day, when she took France into partnership with her in the financial control of the Khedive. Italy, it will be remembered, put in a claim to the partnership, and wanted one of her subjects appointed to an Egyptain ministry. Although she failed in this Italy is still determined to play a part, of importance in the Eastern question in future, and, to that end, has purchased a large section of land on the Red Sea, near Aden, which she proposes to colonize. France has also gone into the land purchasing business and has a considerable domain on the Red Sea. Russia has not only followed suit and made connections as far South as Abyssinia, but has actually entered Egypt and purchased considerable land there. Quite a number of Moscow merchants have engaged in this enterprise. They propose to develop the cultivation of cotton in Egypt, and hope to be able to supply Ruasia with all the cotton she needs from the valley of the Nile. It will thus be seen in case another Egyptian question arises there will be other powers to be consulted thereof besides England and France.

**Domestic Life of a Chinese Emperor.**
Hong Kong Daily Press.

At the age of fifteen they must marry. The Emperor sleeps with eight handmaids (ch'ang'tsai) sitting upon his bed, all of them girls from the imperial household (nei-wu-fa). Their function is to keep watch over his Majesty, and they are not allowed to sneeze, cough, spit or utter any sounding. The movements of the Emperor after awakening in the morning are signalized by a clapping of hands on the part of the eunuch on guard. Once a year—on New Year's day—the Emperor and Empress preside at a grand banquet, the Empress sitting on the Emperor's left hand. This is the only occasion during the year on which the Emperor can see his wives together and compare their respective merits. The Empress presents articles of food (k'e-shih) to the eunuchs, who receive it from Her Majesty on their knees, and the Emperor performs the same politeness to the women. The Emperor is spoken of and to as hwangchang—"Majesty"—by all but members of the inner banners, who use the term "chu-tsz"—"dominus." The Emperor, Empress and concubines are all called by the eunuchs "fo-ye" or "chu-tsz," *i. e.*, "Buddha" or "dominus," and the Imperial Princess "ye"—the latter term equivalent to "Sire." They are spoken of as "ako." The three inner gates of the Imperial apartments are never entered by eunuchs, and, of men, only eunuchs are allowed to pass the fifth gate, which is watched by a corps of Imperial Guards (shi-whei), who are authorized to strike the shins of even the highest officer who may approach without giving the word. If an inmate of the female apartments wishes to purchase anything or to communicate with the outer world, she must send a handmaid to sound the iron plate (tien), or the clapper (pang-tsz), with which the harem is provided, on which the head eunuch approaches to inquire who is in want of assistance. Having learned who calls, he dispatches the under eunuch specially attached to this department, who addresses the handmaid and takes her orders, either verbally or on a slip of paper. The Cabinet Ministers (chun-chi) rise every morning at 2, present themselves at court at 3 a. m., and are then received in audience. Their meals are served up gratis from the Emperor's pantry, and the whole day is spent at the palace until 4 p. m. on "off" days, and till 6 p. m. on days when there is military business to discuss. Thus the only time they can call their own is from, say 5 p. m. to 2 a. m. If indisposed, of course they may obtain leave of absence, which must frequently be a great boon. The chun-chi never return the calls of any but the most distinguished provincial officers, and even then this is done on the way from the palace.

**"To Thine Own Self be True."**
Burlington Hawkeye.

Just be honest with yourself, and then you will be honest with the world, and when you get to be honest with yourself, my son, you will be surprised to find what a good fellow you are. You will like yourself. You will want to shake hands with yourself and pat yourself on the back, and call yourself "old boy" and be on familiar, friendly "Tom and Bill" terms with yourself. But so long as you are not fair and candid and honest with yourself, so long as you make yourself a promise on the first of January and break it on the second, you will hate yourself, you will be ashamed of yourself, you will seek any society to avoid the rebuke of your own presence. So, be good to yorself, my boy, any promises on the first of January stick to them if you have to go out of society and live in a cave. Keep them, if you break a trace a hundred times a day. Be honest with yourself, and by the middle of June you and your conscience will be so satisfied with each other that you will want to run yourself for President.

**A Down-town Merchant.**

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still worse; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists at 25 cents a bottle.

A Paper for all classes of the People and in every Department of life.
Independent and Conservative.

THE SUN is conservative in politics, independent in tone and non-sectarian. Its proprietors point to the principles that have governed it in the past as a guarantee of its course in the future. On all subjects of public interest it will continue to express its opinions, according to its best judgment, with a view only to the promotion of the best interest of the public. All the freshest news, at home and abroad, excluding only that which is prurient or sensational, is given from day to day in its columns. In addition to what is furnished by the Associated Press and by the local reporters of The Sun, no expense is spared to keep its special correspondence, that from Europe as well as from the Pacific Coast, and from its Washington Bureau abreast of the times, and to supplement it, as occasion may require, at every other point to which the current of events give prominence.

The Financial and Commercial Reports of The Sun contain at all times full and trustworthy accounts of all movements and operations in the leading markets, as well as that of Baltimore, with special telegraph service from New York of the latest stock and other transactions; while its reports of the ruling prices of breadstuffs, provisions, and other leading articles of trade and commerce, will embrace the latest intelligence, both at home and abroad, of each day's doings, up to the hour of going to press.

As a Paper for the People, filled with the freshest and most varied news, The Sun has acquired a reputation which is not surpassed by any of its contemporaries, while its large circulation, not only locally, but in many of the States of the Union, makes it the most valuable medium for all classes of advertisers.

## Medical.

Rev. Dr. Mangum, Prof. Univ. of N. C.
I concur with Bishop Doggett in his estimate of the Vest Pocket Cure.

Rev. Drs. Jeter, Broaddus, Dickinson, (Bap.)
It is indorsed by the direct personal testimony of men of national fame and strictness of speech. It is not too much to say that no medicine ever had such support in its favor as a specific. The word of any one of the eminent divines who underwrite this antidote to dyspepsia has deserved weight. Their united witness joined with the experimental use and approval of the preparation by well-known physicians, removes all doubt. It is beyond question, a wonderful therapeutical agent.—Editors Religious Herald, Va.

Chaplain Randolph Macon College, Va.
Many cases of Dyspepsia within my knowledge have been cured by it. Cramps, Colics Headaches and all sorts of pains from indigestion yield promptly to it. The cures of this sort are innumerable.

Rev. R. L. Dabney, LL. D., Col. Va.
It is highly esteemed here by the regular Medical Faculty and the people. It is excellent for indigestion and flatulent colic, sedative, soporific, tonic, slightly aperient, without nausea.

Rev. B. F. Woodward, P. E., Va. Conf.
About twelve years I suffered from Dyspepsia. Falling in with this remedy, I gave it a fair trial. After its use I could eat anything with impunity. I am sure I am indebted to this medicine for what of health and physical comfort I have had for the last sixteen years. I have known many since to be relieved by its use.

Rev. Robert W. Watts, A. M., Va.
I have used the mixture in my family for years, and have taken it for a Dyspepsia Colic, which threatened my life, and was cured, eating any diet without hurt. I have recommended it to other sufferers with happiest results. It is the best tonic and corrective I ever knew. For prostration from Dyspepsia or Liver Disease it is invaluable.

J. D. Eggleston, M. D., Va.
It is a highly valuable remedy, and is more extensively used than any single article in the whole list of medicines, so far as I observed in my practice, for all the complaints in familie from indigestion I use it and recommend it.

Editor Richmond Christian Advocate.
This remedy is of tried virtue. I have seen Dyspepsia cured completely by it. It seems to be an antidote to our "National Disease." The ingredients are not kept by the apothecaries, and have been difficult to get.
Price 25 cents per bottle. Sold by all druggists. In Raleigh, by

### The Fatal Telephone.

Andrews Bazar.

He stood with his ear telephone
At a time when he hadn't ought,
And caught the words in a distant room
Of his only child—a daughter.

The sounds he heard to his heart sharp went.
Like the stroke of a reaper's sickle;
"Oo! Oo! good gracious! Neddie dear,
How your mustache does tickle!"

Then the father he
Went quite crazee,
And bare his bosom throwing,
He stabbed himself with the telephone wire
And set his life-blood flowing.

### Rufus Choate Gives His Reasons.

It is related of the late Rufus Choate that, on receiving a note from his associate counsel at Washington, informing him that in an important case the court had decided against him, he wrote back as follows: "Dear sir: The Court has lost its little wits. Please let me have—1. Our brief (for the law). 2. The defendant's brief (for the sophistry). 3. The opinion (for the foolishness), and never say die."

## Cuticura

### BLOOD AND SKIN HUMORS,

*The Scourge of Mankind. Old Methods of Treatment and Remedies a Failure.*

CUTICURA RESOLVENT, the Great Blood Purifier and Liver Stimulant, is the most searching, cleansing, and purifying agent of this country. It may be detected in the saliva, sweat, milk, blood, and urine in forty minutes after taking the first dose, showing that it has entered the circulation and been carried to every part of the system. It forever eradicates the virus of Syphilis, Scrofula, Cancer, and Canker, those terrible blood poisons that rot out the machinery of life, filling the body with foul corruptions. Taken internally in conjunction with the external application of CUTICURA, the Great Skin Cure, it speedily cures Scrofulous Ulcers and Old Sores, Salt Rheum, Psoriasis, Tetter, Ringworm Scald Head, Dandruff, and all Itching and Scaly Diseases of the Skin and Scalp.

### ECZEMA ON THE SCALP.

BREAST AND LIMBS CURED.

Messrs. WEEKS & POTTER: Gualemen—I cannot refrain from adding my debt of gratitude to you for having placed within my reach the wonderful CUTICURA REMEDIES, which have rendered unnecessary all further experiment of physicians, and in a remarkably short space of time have rid me of a loathsome disease. I dispensed with all physicians two years ago, believing they did me no good. The CUTICURA has stopped this unsatisfactory expense—even if it were necessary and I had the courage any longer to follow their advice—and brought the long-looked-for cure and happiness.

I have been afflicted with Eczema or Salt Rheum on my scalp, breast, and limbs for five years, during which time I have been under the treatment of physicians, or at mineral springs, or taking some kind of medicine. I have been treated by Drs —— of ——, Dr. —— of ——, and visited sulphur springs and taken numbers of patent medicines, all without the faintest approach to a cure.

April 1st last, I began the use of CUTICURA, which was immediately successful in my case, entirely curing me. I have not had a clean scalp for 15 years until the use of CUTICURA entirely healed it and left it clean and healthy. The other parts of my body were affected in a more aggravated form, but are now completely healed. I believe myself completely cured. I shall continue the CUTICURA RESOLVENT as directed, for its wonderful action on the stomach and bowels and cooling influence on the blood. It will afford me pleasure, as I have done in many cases, to urge the afflicted to use these wonderful remedies.

Yours, etc.,
STEPHEN CROWELL.
NEW BEDFORD, Sept. 30, 1878.

### A RUNNING SORE

CURED IN ONE WEEK.

Messrs. WEEKS & POTTER:—Some three or four weeks ago I ordered a box of CUTICURA for a bad case of Salt Rheum. The back of one of my wife's hands was a running sore. In one week from the day it arrived her hand was well and has remained so up to to-day. E. P. DAGGETT.
MILFORD, ME., June 10, 1878.
NOTE.—Reader, don't you think these cures remarkable?

### CUTICURA SOAP,

MEDICINAL AND TOILET,

Is prepared from CUTICURA in a modified form, and is positively indispensable in the treatment of Skin and Scalp Diseases. We recommend it for the preservation of the skins of infants, for gentlemen who shave and are troubled with tender faces, for those who desire a clean and wholesome Skin and Scalp, and for all purposes of the toilet, bath and nursery. Its delightful and refreshing fragrance equals or surpasses the finest Parisian Soaps.

The CUTICURA REMEDIES are prepared by WEEKS & POTTER, Chemists and Druggists, 360 Washington street, Boston, and are for sale by all druggists. Price of CUTICURA, small boxes, 50 cents; large boxes, $1. RESOLVENT, $1 per bottle. CUTICURA SOAP, 25 cents per cake; by mail, 30 cents; three cakes, 75 cents.

The market has been active during the week with full orders for all offering, market closing 12 1-4 c. middling. We note that there is a large quantity of cotton stored here at this time.

The following statement from a well known citizen of Granville county is but another proof of the remarkable virtue of Mrs. Joe Person's Remedy:

"Last March I bought a bottle of Mrs. Joe Person's Bittters and some of the Wash, to try on my nephew, who was badly afflicted with Scrofula, the doctors had attended him for two years and did him no good, they recommended Sarsaparilla, Iredine and other medicines which I tried without any benefit. I had not used Mrs. Person's Remedy more than a week before I saw a change for the better. I continued its use until I had given him four bottles, and I am glad to say, he is now well. I know it to be all she claims for it, a certain cure for Scrofula, and unequalled as a Tonic and blood purifier. It ought to be in every durg store in the United States.

W. S. FARABOW,
Tally Ho, N. C.

Jan. 20, 1880.

The medicine can be obtained in Raleigh from Wm. Simpson, F. H. Heartt and Pescud, Lee & Co. Persons desiring to see testimonials of cures, can obtain circulars by application to them or Mrs. Person.

**What Physicians at Home and Abroad Think of the Seven Springs Iron and Alum Mass.**

In the treatment of Dyspepsia, Chlorosis, Anæmia, Nervous and Muscular Debility, Nervous and Sick Headache, Dysmenorrhœa, Menorrhagia, Amenorrhœa, diseases of the Kidneys and Bladder and such like organic or functional disturbances, I know of no remedy upon which I can rely with more certainty of satisfactory results than the "Seven Springs Mass."
W. F BARR, M. D.,
Abingdon, Va.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment.
GEO. T. HARRISON, M. D.,
New York City.

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for chronic diseases.
G. M. D. PATTERSON, M. D.,
Eaglewood, Texas.

For Dyspepsia, Ulcerations of the Throat, Inflammation of the Neck of the Bladder, Leucorrhœa, etc., the "Seven Springs Mass" seems to act with almost specific effect.
E. O. GRIGSBY,
DeView, Ark.

We could extend this list into the thousands with such testimonials from physicians from every State in the Union, but these are sufficient to indicate its application. The reputation of the remedy is too widely known to waste words upon its character. In ordering from druggists always mention Seven Springs Mass. Price $1 per package or six for $5, sent by mail, postpaid.

give satisfaction.

We are now receiving orders from parties that have one and some have two of these celebrated Engines and Boilers; they will have no other at any price, and only ask that they may have another as good as those they have. Talbott & Sons are now furnishing the best Northern markets with their Engines and Boilers, and give the very best satisfaction when tested with the best made Northern Engines.

Look at the cost of repairs of this Engine and Boiler, after run by inexperienced men. I will name a few who have run them constantly under the severest test. One party has a 20 horse power Engine and Boiler—run for six years, has paid fifteen dollars for repairs; another a 25 horse power Engine and Boiler—run five years and paid five dollars; another a 15 horse power Engine and Boiler—run four years and paid three and a half dollars, caused by his own carelessness, and unless by unusual carelessness these Engines and Boilers never need repairing within from five, ten and sometimes fifteen years.

Those in want of

would do well to correspond with me. I will give as LOW PRICE and REASONABLE TERMS as any Reliable Manufacturer.

## THE NEW FRYER.

This useful invention meets a long felt need for a more convenient method of removing Oysters, Potatoes, and other fried food, with greater quickness, and all at once, from the boiling fat in which they have been cooked, and allowing the fat to drain from them while they remain over the fire; thereby getting rid more certainly of the superfluous grease, the objection so often made of the unhealthiness of food cooked in the ordinary frying-pan is done away with.

By detaching the supporter, you have for omelettes and other things for which a drainer is not required, a deeper and better quality of frying-pan than has heretofore been made.
